FOR IMMEDIATE RELEASE

### D.E. Web Works Wins 2013 WebAward for TriEagle Energy

*The Woodlands, Texas – October 28, 2013* – D.E. Web Works announced today that it has achieved the 2013 Energy Standard of Excellence award from the Web Marketing Association for TriEagle Energy in the 17<sup>th</sup> Annual WebAwards. The WebAwards are judged by a panel of Internet industry experts on a variety of critical areas, including design, interactivity, technology, content, innovation, copywriting and ease of use.

“We are proud of our team’s efforts on the new website for TriEagle Energy. This year’s energy category included a lot of stiff competition and we’re excited that all our work, and our client’s work, has been recognized by such a prestigious honor,” said David Arnold, President & CEO of D.E. Web Works.

“Our designers did a great job of creative and branding on the site, but we’re especially pleased that the site is performing so well for our client. There’s a great balance of aesthetics, usability and performance that gets us excited about these types of projects. It was a total team effort.”
